

NEW  
MODERN ALCHEMY

#AlchemyReimagined | @espaskincare

ESPA have launched their Modern Alchemy Range introducing 6 new body products... A deeply sensorial collection of restorative rituals that realign the delicate balance between skin, body and mind, a luxury to cherish in today's modern world.

Starting from Monday 27th April, the Espa Training Team will be live-streaming on Instagram to talk about how to create the perfect ritual at home using each of the products with lots of expert advice on the products. Along side this they will be delivering Yoga and mindfulness sessions.

This is the first time we'll be seeing the new range, tune in and let us know what you think!
